EXERCISE – 6

Question: Execute and display the results of the following commands in Kali Linux Operating System:

1. touch command
2. pwd command
3. wget command

Aim

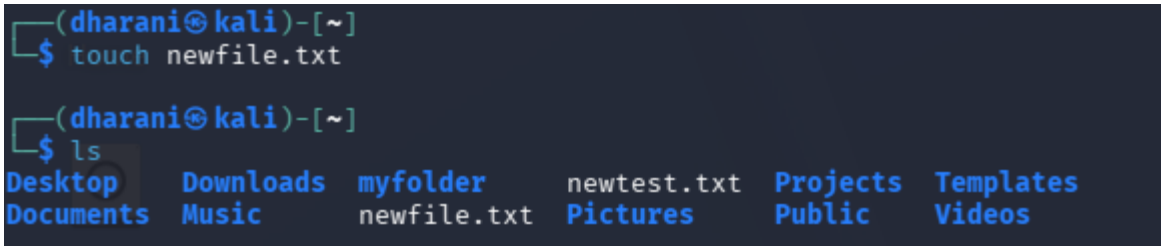

To execute and display the results of the touch, pwd, and wget commands in Kali Linux.

1. TOUCH COMMAND

Command:

touch sample.txt

Use: The touch command is used to create a new empty file.

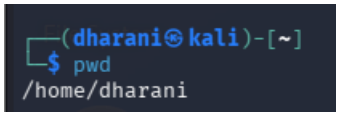

2. PWD COMMAND

Command:

pwd

Use: The pwd command displays the current working directory.

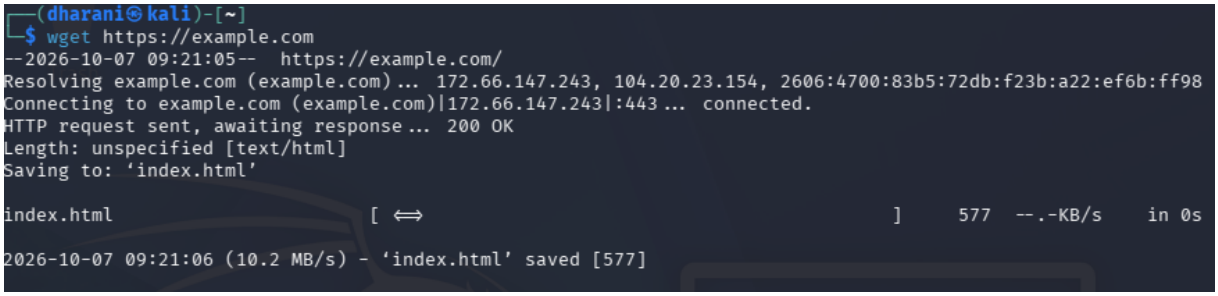

3. WGET COMMAND

Command:

wget https://example.com

Use: The wget command is used to download files or web content from the internet.

Result

Thus, the touch, pwd, and wget commands were successfully executed in Kali Linux and their results were displayed.
